SE Project week 1

Synopsis

SL NO	Team Member Names	SRN
1	NIDHIN S	PES1UG20CS569
2	NISCHAL R BHAT	PES1UG20CS572
3	PRATIK M KATTI	PES1UG20CS577
4	SACHETH N S	PES1UG20CS585

➢ Project description :

- Algorithm visualizer is a Web application.

- Algorithm visualizer is an interactive platform which visualizes the algorithmic code in an easier way to understand the algorithms.

- It displays the algorithms in a graphical manner which makes the user to understand the working of the code.

- It will help in understanding the algorithms which are hard to visualize just by seeing the code like sorting algorithms, recursive algorithms, path finding algorithms
